

AMERICANS! WAKE UP!!

“Your failure to use the proper solution which can stop all the calamitous events that are ruining your lives, your families, your government, your Bill of Rights, including the right to keep and bear arms, are caused because you have not applied the right remedy to the problem! You do not need to succumb to those who are intentionally destroying your Constitution, your economy, your schools, your money and savings, your religion, your Bill of Rights, and your authority over your public officials.”

“Your downfall got started the day the United Nations Charter got signed. The Charter was called a “treaty”- but how could it qualify as such? Only sovereign countries can make treaties! Two communists drew up the U.N. Charter: Alger Hiss and Leo Pasvolsky, and under false pretenses, they got all the countries to sign in on this communist document. What did you think was going to happen when your president (J.F.K.) signed you under the United Nations Program for “General and Complete Disarmament” in 1961 (known as Public Law 87-297)? Didn’t you realize that it was going to destroy the Second Amendment in your Bill of Rights, and you would be forced to transfer your entire armed forces over to the U.N. on a permanent basis? What action did you take to get this insane United Nations program stopped?”

We agree with Uncle Sam: It is the U. N. Charter that has been behind the gun grab, the sellout of our rivers, parks, and historical sites to U.N. control. They laid down the ten federal regional alignments that are meant to replace the 50 American states. They have trained people to run our Congress who remove our safeguards, while they write laws to label our protective arms as “assault weapons”! They bled us of our tax money to finance the conversion of our country and others into a global communist world government. Ever since, the U.N. has controlled our presidents totally! He gets his marching orders from the U.N! Whenever they pass socialist legislation in the U.N. General Assembly, it is up to the U.S. president to get it enacted into our domestic law! They have trained liberals on how to manipulate the U.S. Congress, and introduce laws that are unwinding the principles of our true government. U.N. control has reached the point where they are getting ready to arrest and annihilate patriotic Americans who have tried to stop this tyrannical communist take-over of the nation. They leave the national borders open because the intent is to replace our population with unqualified foreigners who will not object when they merge the U.S.A. with Mexico and Canada under a one-world communist form of government. Our military bases have been changed under the B.R.A.C. group (Base Realignment & Closure Program) to

prepare for occupation by foreign soldiers to police the United States. Our form of government has been quietly changed into a dictatorship by the creation and installation of the Homeland Security Department (check out this massive Executive Order 13286). Our republic is replaced by a different form of government! The military and civilian law enforcement system cannot be merged together and still have a republic! It is the formula for a dictatorship. We are almost at the point of no return! Only by termination of membership in the United Nations Organization will these damages be reversed! It must be done!

The U.N. Charter was sold to Americans on the basis that it would stop wars, but we have been in a constant state of war with many countries, killing any group who objects to the takeover of their country. Meanwhile, in the United States the U.N. propaganda keeps American citizens in line, and continually being deceived as to the true purpose of the United Nations presence. Honest government won't come until the U.N. Charter is excised from our government and the U.N policies are reversed. Soon the people will be ordered to obey the U.N. policy on land, which states that *no individual may own land*. Americans were taken in under false pretenses when the U.N. Charter was signed. But it is not too late nor impossible to reverse the damage of these permanent U.N. goals.

The international premier principle for voiding a treaty is called by a Latin name: Rebus Sic Stantibus. It means that 'there was more there at the onset of agreement than what was told'. At the time the U.N. Charter was first pushed upon the unsuspecting people, it was heralded as the only way to stop wars. U.S. officials and presidents sold Americans out on this basis while the very opposite has been true!

We must order good legislators (those who are still in government and loyal to our true Constitution) to speak out and support the premier principle (Rebus Sic Stantibus) for nullifying a treaty, and save us from this national suicide! This premier principle is the quickest and best answer to all the problems that have beset us and are destroying our nation. Call your representatives and tell them we should not wait for the chip-in-the-hand nor the Small Arms Treaty to take effect.

We must be realistic about life and our world. We don't want any more unnecessary wars, but we do need to retain the right to go to war, if necessary. We need to learn from Karl Von Clausewitz, a German military strategist who said:

“The aggressor is always peace loving for he wants to enter the territory of his victim unopposed. War exists for the benefit of the defender! It comes about only if the defender wishes to fight for his vital interests rather than surrender them.”

Uncle Sam is right! It is time for Americans to wake up! We've been listening too long to the song of the "peace-makers" – the United Nations socialist-sirens -- who have entered our territory unopposed, and are taking us down the road to global communism. Membership must be terminated in this parasitic organization. It is a cancer on our political body. We must realize what they have already done to us before we reach the point of no return. Power corrupts and absolute power corrupts absolutely. Hang on to the Constitution!
