Governor C. L. "Butch" Otter  
P.O. Box 83720  
Boise, Idaho 83720

Dear Governor Otter:

This letter is being sent to you now, first by fax, and then by mail, the latter method being accompanied by a document of utmost importance. Earlier today I sent you a speedily handwritten fax, thanking you for signing the Idaho legislation yesterday which is in strong opposition to Obama's Health Care Measure. The secret mission of ObamaCare and other socialistic laws\* (including numerous executive orders) is *to gradually alter the operational concepts of our rightful system of government, and quietly move us under a dictatorial form (of regional government); run by people we cannot elect nor cannot recall, as they plunge our nation into bankruptcy along the way!* The Health Care would certainly finish us off!

It is a constitutionally-known fact that whenever the federal government [endangers the liberty](#) and safety of the state, it is the obligation of our state governors to come to our aid and restore our rightful system. That is the beauty of the Check & Balance System! This you and your state representatives did very valiantly on March 17, 2010! Thank you and Congratulations! However, another danger looms!

I want you to know that there EXISTS a written plan, produced by a division within California's government ("the California Council on Intergovernmental Relations") and financed with California taxpayers' money: a Plan suggesting methods by which the United States Constitutional system can be collapsed and ultimately be forced into joining a regional socialist/communist world government system. This document is named: *"The Politics of Change in Local Government Reform"*. It is also known by a short title as: *The Houlihan Plan*. It was meant to be read only by special 'insider' people.

This document was meant to be kept away from the general public. However, a copy was accidentally obtained by a patriotic lady (Maureen Heaton, now deceased) who after realizing what it was she took from the State's Publications Room, took it to her County Supervisors in El Dorado County, a California county near the [Lake Tahoe](#) area. Those supervisors, after reading the Plan, and realizing its dangers, in turn, drafted an [El Dorado County Resolution](#) (see attachment) and sent it around to all the other 57 counties in the State of California to warn them that a collapse of government was to be deliberately engineered. The Plan was built for governors (who were having trouble convincing the supervisors within their state to eliminate their county structure and go under "regional" government management). The Plan was intended to f-o-r-c-e constitutional governmental subdivisions to "change" and operate under full regional (world wide) systems .

The Plan was released in California because Gov. Ronald Reagan was having difficulty trying to persuade the supervisors in his own state to eliminate their county system, and adopt a 100% regional government system. Reagan had called California's counties a "horse and buggy" system. He was unsuccessful in his effort and failed to convince the California Supervisors to switch over completely under the Ten Standard Federal Regions (established by Pres. Richard Nixon's E.O. 11647).

Hundreds of copies of The Houlihan Plan document are now spread around the nation -- in the hands of constitutional people. First, read the limited summary of it done up in Resolution form by the El Dorado County Supervisors. Although the Plan was first released for use in California, it has metastasized for national application. Consider the various economic changes in our nation's industrial might, outsourcing, open borders, North American Union, education system, employment, etc. that promote the evil objectives of the Plan. To collapse our country is a distinct goal of the (so-called) "Progressive" groups. When the full document arrives, please verify the Resolution of El Dorado County by opening [Page 132- 133](#) of the Plan: "The Politics of Change in Local Government Reform."

The [originally expressed purpose](#) for regionalization was to eliminate the states and operate the country with appointive representation. This is one of the "changes" that Obama has been programmed to complete: collapsing the whole system of government in the United States for a socialistic world government takeover. Obama's recent appointment of a governor over each of the Ten Standard Federal Regions is right in line with the plan to [eliminate state boundary lines](#), dissolve the states, and set a militarized government in operation as planned in conjunction with Public Law 87-297. If we fail to stop Obama and his ObamaCare Health legislation, he will advance to the Small Arms Treaty and move next to *prohibit* all privately owned guns owned by the people!

Whoever the "experts" are "advising" that federal laws supersede the state laws has never read the Tenth Amendment! In closing, I repeat: please watch for the full report which is being mailed in a flat rate post office mailing box leaving today.

Once again, may I thank you and your fellow law makers who are defending us against federal encroachments.

Sincerely,

Second Amendment Committee

Bernadine Smith  
cc: Many Patriotic Groups

\*For example, refer to Public Law 87-297

Permission granted to reproduce this important and crucial letter. It is self-explanatory. Since the governor of Idaho (one of the better Constitutional states) has taken the lead against ObamaCare, it is hoped that he will be receptive to exposing what is behind today's engineered depression. The full 195-Pg. Houlihan Plan was mailed to him today. Attachments sent to him are indicated by links you find within this letter.
