

HERE'S WHAT THE BUSH DYNASTY IS INTENDING TO COMPLETE!

Merging together

all these countries

into one;

however,

there is NO

“Consent

of the

Governed”.

Let us not

stand aside

and permit the

overthrow of our

own government!

THE “NEW” UNITED STATES OF THE AMERICAS

Shown above are Greenland, Iceland, Canada, Mexico, Guatemala, Nicaragua, Honduras, Costa Rica, Panama, and the United States, all being merged into one internationalized *New World Order* global government system. NAFTA, and the WTO have already been agreed upon and activated. If CAFTA gets passed, it will open the way for passage of the FTAA at which time the United States of South America will join in as a part of this merger of all nations in the Western Hemisphere -- the Western Hemisphere with no borders -- all merged under one totalitarian global government .

These mergers are designed to cause the end of our sovereignty, and to force the termination of the Constitution of the United States of America. The plan includes a communist ‘Bill of Rights’ to be applied over all of the people of all these areas. No longer will the 1791 Bill of Rights be there to protect us! This is usurpation, sedition, and treason! No matter how the present administration tries to deny it, these are the facts of what they are doing: creating a world without borders, a global system of all countries melded together! Are we too weak and too timid to stand up for our own country and expose this communistic evil that is being imposed upon us?

If we remain silent while we are being “transformed”, we are permitting the globalists to overthrow our lawful form of government, to deny us all our God-given rights, and wipe out the achievements and protections that were gained for us by the great heroes of the Revolutionary War. If you care about your country and your family, and would like to help, send us an official written permission from your group, stating that it wishes to protest the plans to merge all these countries into one. Do so before the plan develops further.
