

SECOND AMENDMENT COMMITTEE
P.O. Box 1776 - HANFORD, CA. 93232

July 26, 2012

To: Senator Rand Paul and others:

OPEN LETTER

The historical fact is that the "Bill of Rights" is not subject to the repeal, rescind, or revoking process.

Obama has no authority to sign a "Small Arms Treaty" and it is up to the Congress to inform him of this fact! Further, if he chooses to sign this "purported treaty" Congress should immediately call for his impeachment.

This is a republic! In order to be a republic, the people within are armed citizens. Only then do they hold the power and the authority that is required to maintain a republic. American citizens have that power as written in the "Bill of Rights". It is NOT subject to the repeal, rescind or the revoking process. The "Bill of Rights" is the supreme law of the United States!

What the people do not know is that a number of years ago a federal group, called the *Law Enforcement Assistance Administration* falsified "the people's permission for their firearms to be prohibited". The people did not give their approval nor their permission, nevertheless, it was unlawfully entered into the record, and can be found on the 340th page in the revised State Standards and Goals. It was sneaked into the records without public approval or their knowledge, which was supposed to be a requirement! There was none!

Even though this false action is counterfeit, and without the permission of the people, this is the basis upon which Barack Obama intends to sign the Small Arms Treaty. It ties in with the law that John F. Kennedy before him signed in 1961 (which is Public Law 87-297 that calls for "general and complete disarmament of the United States "in a peaceful world"! Look it up in the Internet under Public Law 87-297. This law is also unconstitutional!

Without the permission of the people (the final authority in a republic), none of these laws nor disarmament treaties are valid or operable. There never was any real permission given by the people! The federal government is

operating on a counterfeit permission (so-called "permission" on Page 340) that *they* drew up *by themselves*, and then sneaked into the record.

The people never approved of Page 340 in the revised State Standards and Goals, which claims that the people have given their permission for their firearms to be prohibited. It was added without their knowledge. Disarming American citizens is a scandalous fraud. Page 340 is available to be seen on my website. Check out the titles in the list of topics. See Second Amendment Committee on the Internet.

The Second Amendment is still the supreme law of this land, and cannot be repealed, revoked or rescinded -- or superseded -- by a phony treaty such as the Small Arms Treaty. Rand Paul has been sent the government documents that perpetrated this fraud and he needs your help to properly expose this fraud. Many others also have copies of the documents that prove and expose this fraud. So keep your cool. If the people get hostile, Obama will call for martial law and set the Constitution aside. Do not give him reason to do this. The facts will prove your constitutional rights still exist!

If Obama signs anything on the 27th of July, it is another scandalous act that must be declared by good federal legislators to be another fraud! Please spread the word.

Thanks,

Bernadine
