

## TEACH ABOUT THE HIDDEN THREATS

This is to remind you of the sad state of affairs that is going to befall your children if not checked. It is a must to open all the links on this page. Obama is getting ready to sign an international treaty, which intends to undermine the natural right of Americans to use and possess arms. This right is unalienable and confirmed by the Second Amendment of the Bill of Rights. The sheets entitled: [“If the Gun Could Only Speak!”](#) and [“The Handgun”](#), are a great contribution by Vincent De Pascale, J.D. Start now to open the eyes of your family, friends, and neighbors to the damage Obama is expected to do to our liberty by the attacks on the gun. Are people aware that the Arms Control and Disarmament Act of 1961 (also known as [Public Law 87-297](#)) will force the mandatory surrender of all firearms privately owned by the people of the U.S.A.?

Obama reportedly is working on an international treaty with the United Nations, which will promote the *permanent elimination of all handguns belonging to decent law-abiding citizens of the United States*. The federal government explains the program in: *“Freedom from War: The United States Program for General and Complete Disarmament in a Peaceful World”* (known as [State Dept. Publ. 7277](#)). Obama is obligated to continue the fulfillment of this program, already passed into federal law. Obama’s willingness and political cooperation to enforce it is apparent, evidenced by his speech to the [U.N. General Assembly](#) on September 23, 2009. Under the provisions of this law, the United States government is obligated to transfer *all* U.S. national armed forces on a permanent basis under the command and control of the United Nations’ communist-dominated commanders in the U.N. Security Council. What this means is: the United States will soon have no more national Army, no more national Navy, no more national Air Force, and no more national State Guard. It also means that the people of the United States will have no more guns, no more sovereignty, no more republic, and no more independence or liberty! Communism will be the victor!

**THE BIG QUESTION:** *Can you imagine life in the United States in a few years if Obama is successful in implementation of this Arms Control and Disarmament Act; thus, prohibiting and eliminating possession of all privately held, citizen-owned handguns of every sort and type in the nation? Can you imagine the shock of your now unsuspecting children, when they later find out that they have been so poorly cared for by their elders, that they must now live in a totally disarmed nation, which provides no national military, with a totally disarmed citizenry, and with no right to own a gun?*

**ONE MORE QUESTION:** How will your children fare under these circumstances when they are also told that they must now adhere to the United Nations’ policy on land, which provides that *land cannot be controlled by individuals*? As serfs in the future, your children can be moved to any other location in the world to live or work, which is the claim of the United Nations’ International Labor Organization! This global intent is easier to achieve when individuals do not own land or guns. A rollback of bad laws has to be made!

**THE LAST QUESTION:** Can the United Nations force serfdom on your children if they still have the right to keep and bear arms?

Not likely! The Second Amendment confirms the right to arms to be a natural God-given right, not subject to surrender. Warn your children when sedition sets in! There are many sheets on our website dealing with the fundamentals you should have already taught your children, for example [“Why Do People Want Guns?”](#) Teach them how to hold on to the great inheritance given to them by the men who built the republic. Without arms, the possibility of true freedom will not exist! Spread the word about these hidden threats. Without guns, liberty and freedom are dead! Guns are essential!
